your
Concepts

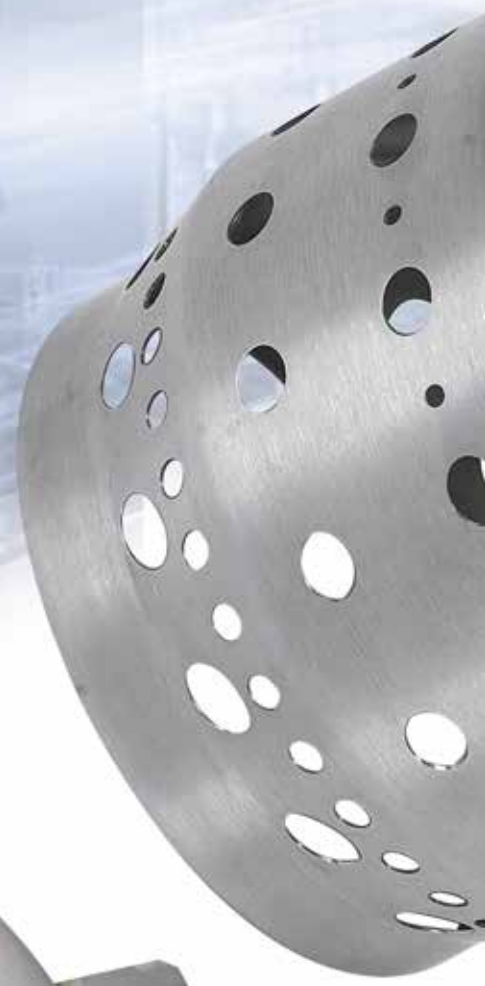

PMF
INDUSTRIES, INC.

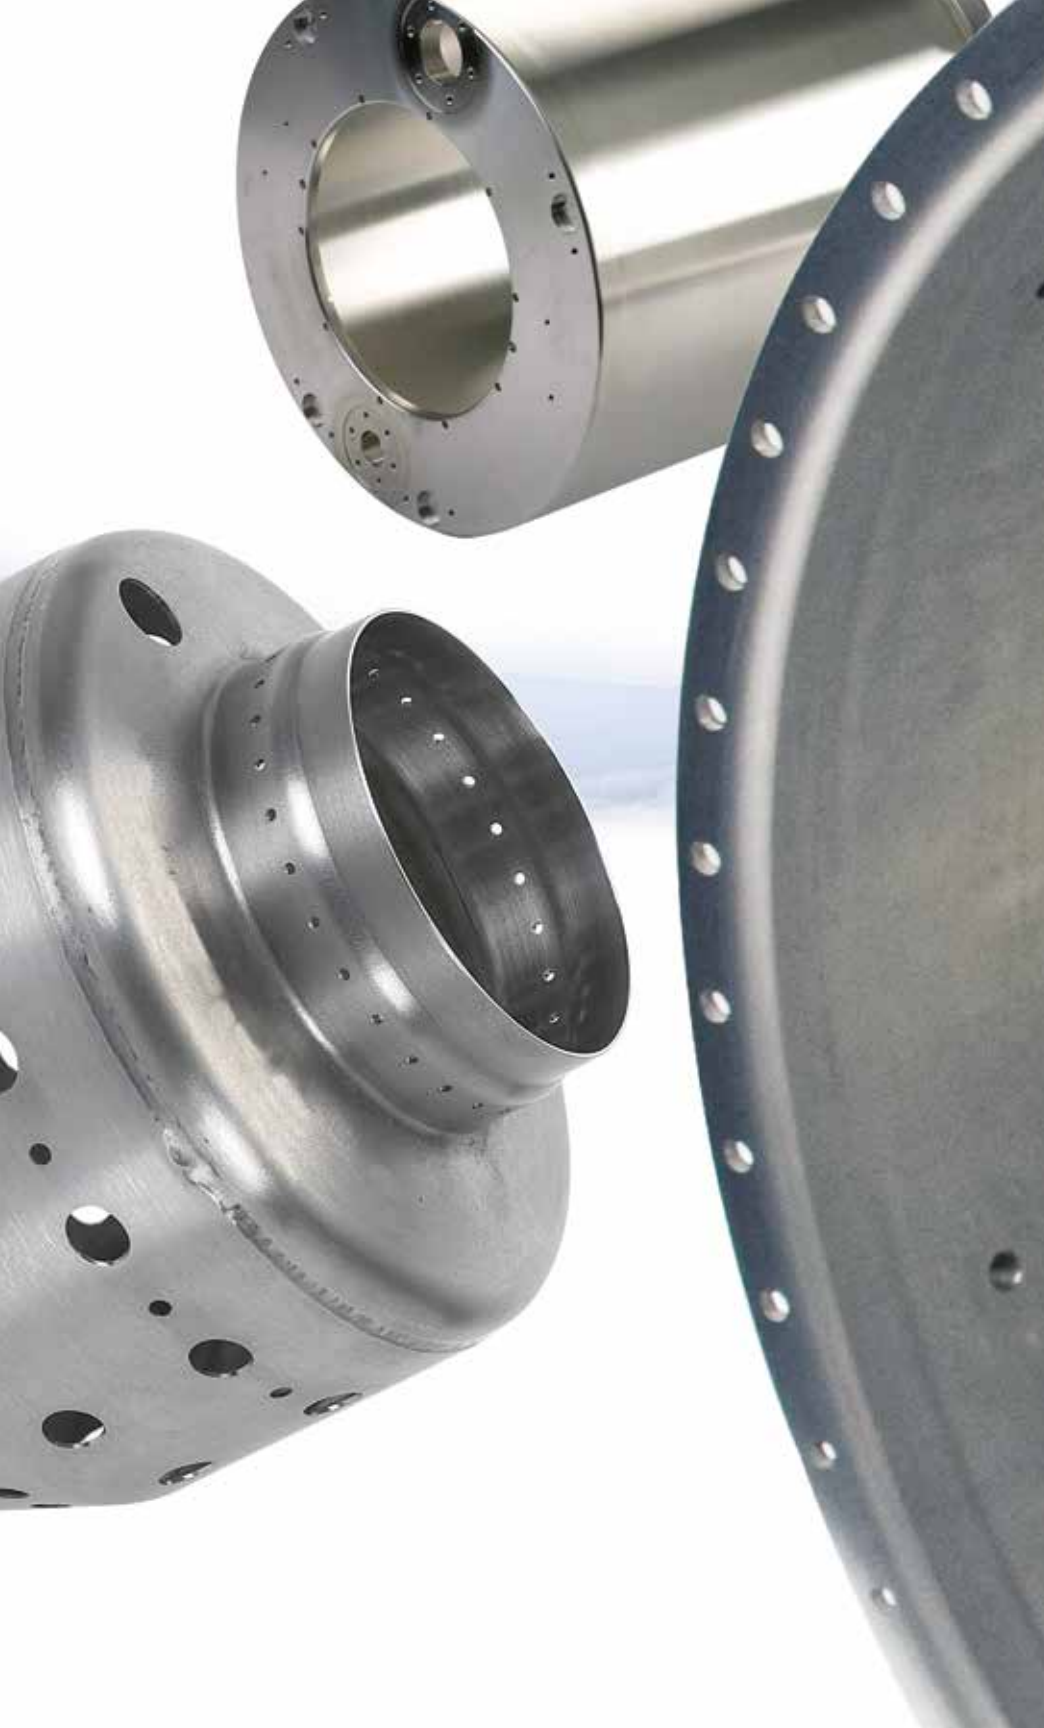

...into
manufacturable
realities

FlowformingPlus™

As the world's premier flowforming manufacturer, PMF can produce component shapes beyond the means of conventional metal forming at a more economical price. Better yet, with our extensive range of processes we can make more than just traditional cones and cylinders; we form one-piece component shapes nobody else can. And with all those processes under one roof, we can take you from design through to the finished product. One set of hands. One-piece construction. Endless possibilities.

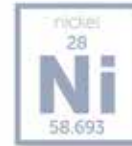

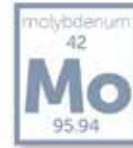

Flowforming in action

Flowforming^{Plus} Benefits

- Seamless construction
- Precise control of material thickness
- Lower cost
- Less weight
- Accurate profiles
- Design flexibility
- Complete assemblies
- Various materials
- 50+ years of flowforming experience

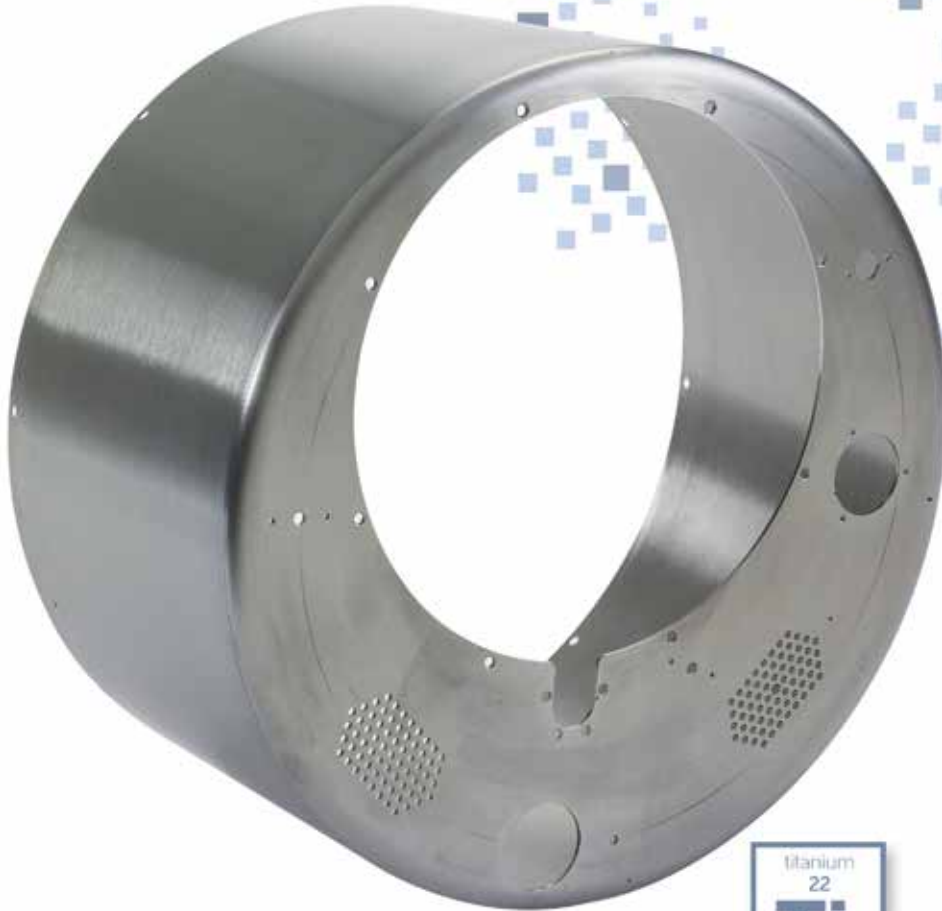

- Brass
- Copper
- Aluminum
- Nickel

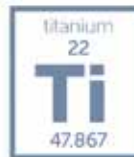

...with a
wide range
of materials.

- Stainless Steel
- High Strength Low Alloy Steel (HSLA)
- Maraging Steel
- Alloy Steel

- Precipitated Hardened Stainless Steel
- Titanium
- Inconel®
- Hastelloy®
- Niobium
- Tantalum
- Columbium
